EXPENDITURE STRUCTURE

I. INTRODUCTION

A. General

The Expenditure Structure is a mechanism for classifying in a systematic manner different types of expenditures and for collecting expenditure information. The information is used for accounting control, financial management, and budgeting purposes.

B. Levels of Expenditure Definitions

1. Character of Expenditure. The broadest grouping of expenditures, based on designated use. The characters of expenditure consist of three major divisions: Operating Expenses, Fixed Asset Expenses, and Debt Service Expenses.
2. Major Object of Expenditure. The broadest subdivision of character which describes an aggregation of objects of expenditure.
3. Object of Expenditure. An organization of expenditures which describes an aggregation of subobjects of expenditure.
4. Subobject of Expenditure. A distinct expenditure.
5. Coding. The expenditure classification code consists of four digits which identify the following components:

- a. The first digit denotes the expenditure character, such as:
 - 1000 - Operating Expenses
 - 2000 - Fixed Asset Expenses
 - 3000 - Debt Service Expenses

- b. The second digit denotes the major object classification of expenditure, such as:
 - 1100 - Personal Services
 - 1200 - Contractual Services
- c. The third digit denotes the object of expenditure, such as:
 - 1110 - Employee Benefits
 - 1120 - Salaries
- d. The fourth digit denotes the subobject of expenditure, such as:
 - 1111 - Employer Retirement Contributions
 - 1114 - Group Insurance
- e. For accounting purposes, all source documents must be coded at the subobject of expenditure level using the four-digit code, e.g., 1113. For budgeting purposes, the level of expenditure used will differ depending upon the requirements for the source documents.

Special Notice Effective July 1, 2001 concerning VALORS Salaries

The Department of Planning and Budget needs to better account for the cost of salaries and severance payments for participants of the Virginia Law Officers' Retirement System. Therefore, subobject code 1127 has been established to account for the expense effective July 1, 2001.

Special Notice Effective July 1, 1998 on Recovery Codes

The Departments of Planning and Budget and Accounts established uniform accounting and budgeting procedures for the purchase of services between state agencies. The procedures were sent to fiscal and budget officers in a joint memo dated May 20, 1998, entitled, Procedures for Identifying and Accounting for Transactions between State Agencies and Institutions. Table 4 entitled, "Procedures for Recording Non Vendor/Non-Subrecipient Transactions between State Agencies and Institutions," calls for the service provider agency to use recovery code XX98.
